

anatomischer anzeiger

**Zentralblatt
für die gesamte
wissenschaftliche
Anatomie
(Seit 1886)**

Begründet von KARL VON BARDELEBEN

- Chefredakteur:
GERT-HORST SCHUMACHER, Rostock

-
- Redaktionssekretär:
JOCHEN FANGHÄNEL, Rostock

- Redaktionskollegium:
ROLF BERTOLINI, Leipzig
ALFRED DORN, Greifswald
PETER DULLEMEIJER, Leiden
EDUARD KLIKA, Prag
WOLFGANG KÜHNEL, Aachen
OVE NILSSON, Uppsala
GALINA S. SATJUKOWA, Moskau
MAX WATZKA, Mainz

BAND 141 · 1977

Mit 342 Abbildungen und 40 Tabellen

VEB GUSTAV FISCHER VERLAG JENA

Inhaltsverzeichnis

- BASTAN, S., The Effect of Age and Strain on the Amount of Neurosecretion. With one Figure and one Table. S. 3.
- DHALL, U., and I. SINGH, Anatomical Evidence of One-sided Forelimb Dominance in the Rhesus Monkey. With 2 Tables. S. 420.
- FERRAZ DE CARVALHO, C. A., and F. P. REIS, Histological and Ultrastructural Study on the Subcommissural Organ of *Bradypus Tridactylus*. With 28 Figures. S. 372.
- FERRI, S., A. C. M. STIPP, A. SESSO and H. CORREA, Ultrastructure of the Epidermal Cells of the Teleost *Pimelodus maculatus* LACÉPÈDE, 1803 (Pisces). With 15 Figures. S. 345.
- GALASINSKA-POMYKOŁ, I., The Morphodynamic Patterns of the Paraventricular Nucleus in Rats under Experimental Conditions. I. Cytoarchitectonic Studies. With 4 Figures. S. 248.
- GALASINSKA-POMYKOŁ, I., The Morphodynamic Patterns of the Paraventricular Nucleus in Rats under Experimental Conditions. II. Neurosecretory Activity. With 15 Figures. S. 258.
- GARCIA-SEGURA, L. M., et R. MARTINEZ-RODRIGUEZ, Glutamique, déshydrogénase dans l'écorce cérébrale de lacerta. Avec 3 Figures.
A Histochemical Study on *Lacerta lepida* Cerebral Cortex Glutamic Dehydrogenase Activity. S. 220.
- Geleitwort. S. 1.
- GOEL, K. A., Submassive Necrosis of Liver of *Channa gachua*, a Fresh Water Fish During Experimental Alloxan Diabetes. With 7 Figures. S. 130.
- HEINE, H., und G. SCHAEGER, Zur Ultrastruktur der Beziehungen zwischen terminalen vegetativen Nervenfasern, der Grundsubstanz und Zelloberflächendifferenzierung. Mit 4 Abbildungen.
Ultrastructural Relationships Between Terminal Vegetative Nerve Fibers, Ground Substance and Differentiations of Cell Surface. S. 66.
- JOSHI, C. L., B. S. NANDA and R. P. SAIGAL, Histomorphological and Histochemical Studies on the Female Genitalia of Ageing Goat. IV. Histomorphology of Ovarian Cortex. With 16 Figures, 2 Graphs and 3 Tables. S. 19.
- JOSHI, C. L., B. S. NANDA and R. P. SAIGAL, Histomorphological and Histochemical Study of Mucosa of Fallopian Tube of Ageing Goat. With 14 Figures and 3 Tables. S. 163.

JUNGE, D., Die Topographie und Zytoarchitektonik des Diencephalon vom weiblichen Rind (*Bos taurus* var. *domesticus* L.). I. Zur Topographie des Diencephalon vom weiblichen Rind (*Bos taurus* var. *domesticus* L.). Mit 9 Abbildungen

The Topography and Cytoarchitectonic of the Diencephalon of the Cow (*Bos taurus* var. *domesticus* L.). I. The Topography of the Diencephalon of the Cow (*Bos taurus* var. *domesticus* L.). S. 455.

JUNGE, D., Die Topographie und Zytoarchitektonik des Diencephalon vom weiblichen Rind (*Bos taurus* var. *domesticus* L.). II. Die innere Struktur des Diencephalon vom weiblichen Rind (*Bos taurus* var. *domesticus* L.). Mit 9 Abbildungen

The Topography and Cytoarchitectonic of the Diencephalon of the Cow (*Bos taurus* var. *domesticus* L.). II. The Internal Structure of the Diencephalon of the Cow (*Bos taurus* var. *domesticus* L.). S. 478.

JURINA, S. A., Der Zellbestand verschiedener struktureller Komponenten der regionalen Lymphknoten des Menschen in verschiedenen Altersstufen. Mit 4 Abbildungen und 7 Tabellen.

The Cellular Content of Different Structural Components in the Regional Lymph Nodes of the Man in Different Age Groups. S. 313.

KAYANJA, F. I. B., and J. B. SALE, The Ovary of Rock Hyrax of the Genus *Heterohyrax*. With 9 Figures. S. 206.

KOVACS, K., E. HORVATH, J. M. BILBAO and R. G. ILSE, Annulate Lamellae in Spontaneous Prolactin Cell Adenomas of the Rat Pituitary. With 4 Figures. S. 59.

KRAHN, V., und H. LUZIUS, Besondere Lagebeziehungen kleinerer Arterien zur Vena saphena magna im Bereich ihrer Einmündung in die Vena femoralis. Mit 5 Abbildungen.

Special Topographical Relations Between Small Arteries and the Vena saphena magna at the Region of the Junction with the Vena femoralis. S. 285.

KULSHRESTHA, S. K., Development of the Weberian Apparatus in Indian Major Carp *Labeo rohita* (Ham.). With 4 Figures. S. 433.

LANG, J., und J. NIEDERFEILNER, Über Flächenwerte der Kiefergelenkplatte. Mit 2 Abbildungen

About the Face Value of the Cleft of the Articuluss Mandibulae. S. 398.

MALHOTRA, R. K., and S. K. SHARMA, Histopathological Aberration in Fish Skeletal Muscle During Induced Starvation. With 12 Figures. S. 364.

- MALINOVSKÝ, L., and M. NOVOTNÁ, Braching of the Coeliac Artery in Some Domestic Birds. III. A Comparison of the Pattern of the Coeliac Artery in Three Breeds of the Domestic Fowl (*Gallus gallus* f. *Domestica*). With 7 Figures and 2 Tables. S. 136.
- MATĚJKA, M., An Electron Microscope Study of the Perfusion-Fixed Spleen. II. Fine Structure of the Sinus Lining Cells with Respect to Filamentous Structures in Monkey Spleens. With 5 Figures. S. 331.
- MOGENSEN, CHR., and M. TOS, Density of Goblet Cells in the Normal Adult Human Nasal Septum. With 7 Figures and 2 Tables. S. 237.
- MOITRA, S. K., and A. K. RAY, Morphohistology of the Alimentary Canal of an Indian Freshwater Perch, *Colisa fasciata* (BLOCH) in Relation to Food and Feeding Habits. With 14 Figures. S. 37.
- MOKKAPATI, S., and C. J. DOMINIC, Morphology of the Accessory Reproductive Glands of Some Male Indian Chiropterans. With 5 Figures. S. 391.
- NAGPAL, S. K., B. S. NANDA and R. P. SAIGAL, Regional and Age Associated Changes in the Umbilical Artery of Goat. With 7 Figures. S. 147.
- NAGPAL, S. K., B. S. NANDA and R. P. SAIGAL, Histomorphology and Histochemistry of Renal Coeliac and Anterior Mesenteric Arteries of Ageing Goat. With 5 Figures and 2 Tables. S. 154.
- PÁČ, L., M. HAMPLOVÁ and O. PELCOVÁ, An Atypical Case of Arising of Some Parietal Branches of the Arteria iliaca interna in Man. With one Figure. S. 450.
- PAVILONIS, S., und A. ADOMAITIS, Der geschlechtsabhängige Einfluß angeborener Herzfehler auf die physische Entwicklung des Kindes. Mit 2 Abbildungen und 4 Tabellen
The Sexually Depended Influence of Congenital Vitia Cordis for the Physical Development of Children. S. 340.
- RAJTOVÁ, V., Das Chondrokranium bei Ovis und Capra. I. Mit 10 Abbildungen
The Chondrocranium in Sheep and Goat. I. S. 174.
- RAJTOVÁ, V., Die Wirkung einer einmaligen Röntgenbestrahlung auf die Entwicklung des Chondrokraniums beim Schaf. II. Mit 12 Abbildungen
Influence of Ionizing Radiation on the Formation of Chondrocranium in Merino-Sheep. II. S. 193.
- RANA, S. V. S., Postnatal Enzymorphology of the Albino-Rat Kidney. With 11 Figures. S. 119.

- RANA, S. V. S., Connective Tissue Fibers in the Liver of Squirrel, After Carbon Tetrachloride Poisoning. A Histochemical Study. With 5 Figures. S. 126.
- SAHA, M. P., J. OJHA, P. K. PANDEY and J. S. DATTA MUNSHI, Comparative Histochemical Study of the Succinic Dehydrogenase (SDH) Activity in the Respiratory Muscles of an Air-breathing Siluroid Fish, *Clarias batrachus* (LINN.). With 20 Figures and one Table. S. 106.
- SAHU, S., and G. S. RAO, Histochemical Studies on the Spinal Cord of the Indian Buffalo (*Bubalus bubalis*). With 5 Figures and 2 Tables. S. 228.
- SAIGAL, R. P., and G. S. KHATRA, Paranasal Sinuses of the Adult Buffalo (*Bubalus bubalis*). With 3 Figures. S. 6.
- SAIGAL, R. P., B. S. NANDA, K. S. ROY and S. K. NAGPAL, Histomorphological and Morphometric Changes in the Spleen of Ageing Goats. With 10 Figures and 3 Tables. S. 292.
- SAMANDARI, F., Das häutige Bogenganglabyrinth im statischen Organ des Meerschweinchens. Mit 5 Abbildungen
The Membranous Labyrinth of the Static Organ in Guinea Pig. S. 273.
- SCHMITZ-MOORMANN, P., W. THOMA, J. HEIN und P. IHM, Vergleichende röntgenologische und morphologische Untersuchungen am menschlichen Pankreas. 2. Morphometrische Untersuchungen am Gangsystem des menschlichen Pankreas. Mit einer Abbildung und 3 Tabellen
Comparative Radiological and Morphological Study of the Human Pancreas. 2. Morphometrical Investigation of the Human Pancreatic Duct System. S. 507.
- SINGH, K., Hematology of the Common Indian Frog *Rana tigrina*. I. Erythrocytes. With one Figure and 2 Tables. S. 280.
- SINGH, K., Hematology of the common Indian Frog *Rana tigrina*, II. Leucocytes. With one Figure and 2 Tables. S. 445.
- TEWARI, A. N., and G. S. RAO, Anatomical Studies on the Corpus Geniculatum Laterale in the Indian Buffalo (*Bubalus bubalis*). With 4 Figures and one Table. S. 498.
- TONUTTI, E., Harry Marcus. Mit einem Bild. S. 97.
- VELEANU, C., T. DINULESCU and I. ZOLOG, Vagus Nerve Passing in Front of the Left Lobe of the Thyroid Gland. With one Figure. S. 84.

WILLE, K.-H., und R. LEISER, Adenosintriphosphatasen im bovinen Endometrium und im Trophoblasten während der Implantation. Licht- und elektronenmikroskopische Untersuchungen. Mit 8 Abbildungen

Adenosine Triphosphatase in the Bovine Endometrium and in the Trophoblast During Implantation. Microscopic and Electron Microscopic Investigations. S. 401.

YEW, D. T., H. H. WOO and M. L. POON, The Different Types of Neuronal Cells in the Retina of the Owl as Revealed by Phase Contrast Microscopy. With 5 Figures. S. 78.

Personalia. S. 96

Buchbesprechungen/Book Reviews. S. 86—96, S. 190—192, S. 308—312, S. 426—430, S. 512.
